

# Emma Cepek-Bearé

Production Co-ordinator

Connecting people to nature and conservation is at the heart of what I do. When I'm not assisting natural history productions in making content, I'm working as a forest school leader helping children to learn about and be part of their natural environment. I have worked in both editorial and managerial roles throughout my 23 years of television experience and have been fortunate enough to work on various Natural History documentaries for the BBC, as well as a campaign series fighting against single use plastics. Now at BLP I have hit the jackpot! The Future of Nature global environmental series will no doubt inspire future conservationist and bring us hope in the power of nature.
