

Jane Shirley

Assistant Producer

Since completing my MSc in wildlife filmmaking in 2017, I have been working in natural history programme-making across a range of genres, including 'Predators' for Netflix/Sky Nature, 'Our Great National Parks' for Netflix, 'The Age of Nature' for PBS/BBC Worldwide and various VTs for The One Show. I've been lucky enough to join shoots filming Lions in the Okavango, Wild Dogs in Zimbabwe and the humble hedgehog in the UK, and it's great to be able to share these incredible wildlife behaviour and conservation stories with a wider audience. Outside of work I love a bit of gardening, trying new activities and think the best way to spend a weekend is a surf camping trip to the Welsh coast (even if it rains!).
