

Rob Myler

Producer Director

I'm a specialist-factual Producer & Director drawn to science, history and wildlife filmmaking and have joined BLP to produce a new environmental series. I've spent 10 years delivering shows to Disney/Nat Geo, CuriosityStream, BBC1, BBC2, C5 and C4. The best part of making factual documentaries is showcasing the incredible stories and work of clever and dedicated people all around the world. It's a pleasure to work with the wonderful team here at BLP to continue producing world class television.
